Index to Wallaces' Farmer and Iowa Homestead

Volume 75 — JANUARY TO DECEMBER, 1950, INCLUSIVE — Numbers 1 to 24

General Index

APF, where do you find, 5-6-50, p. 30
A-bomb now? want to drop, 10-7-50, p. 10
Abortions in cows caused by Bang's disease, 6-3-50, p. 19
  in sows, program to whip, 6-17-50, p. 10
Accident dangers, farm, reduced on neatly kept farms, 5-6-50, p. 16
  hazard check sheets on home farms 3-18-50, p. 63
  caused by loose, unbuttoned clothing 2-4-50, p. 16
  falls, machinery, animals and motor vehicles cause most farm 8-19-50, p. 35
  highway, killed and injured Americans in 2-18-50, p. 30
  highway No. 1, cause of death, 3-4 50, p. 61
  number of farm people killed in, 7-15-50, p. 47
Acres, more, in feed grains, 4-1-50, p. 16
  no idle, when corn is reduced, 2-4-50, p. 26
Aftosa fight, 6-3-50, p. 54
Agronomy field days at experimental farm, 5-20-50, p. 61
Aid, first state to county soil conservation districts, 3-4-50, p. 56
Ak-Sar-Ben, Omaha, Sept. 29 to Oct. 8, 5-6-50, p. 54
  Omaha, Sept. 29 to Oct. 8, 6-3-50, p. 47
  Omaha, Sept. 29 to Oct. 8, 9-2-50, p. 45
  Sept. 29 to Oct. 8, 6-17-50, p. 47
  winners, 10-21-50, p. 63
Alfalfa and clover seed should be bought early, 1-21-50, p. 20
  and hogs a profitable pair, 11-18-50, p. 5
  August most dependable month for getting good stand of, 8-19-50, p. 16
  growth, leaf-spot slows down 9-2-50, p. 31
  hay, chopped, weighs one ton for each 270 cubic feet, 6-3-50, p. 19
  is okay, southern certified, 10-17-50, p. 29
  leaves, protein and carotene in, 6-17-50 p. 14
  meal important for sows, 1-21-50, p. 12
  plow land at once for fall seeding of, 8-19-50, p. 16
  put up as grass silage loses 10 per cent of feed value, 6-17-50, p. 14
  seed can replace red clover, 3-4-50, p. 58
  seeding, tips on, 8-19-50, p. 25
  seedings, new, should be checked daily for grasshopper damage, 9-2-50, p. 31
  stands, good, how to secure, 3-4-50, p. 58
  sun-dried, dehydrated, compare, 4-15-50, p. 31
  when making hay, may lose 10 to 30% of feed value in, 6-17-50, p. 14
Allotment, got your, 3-4-50, p. 1
America, I like, more freedom, 12-2-50, p. 22
American Dairy Association, C. R. Schoby elected president of, 4-15-50, p. 66
  Dairy Association to hold fall meeting in Des Moines, 11-4-50, p. 55
  Farm Bureau federation convention, Dec. 10-14, 11-4-50, p. 55
  Farm Bureau federation convention Dec. 12-14, 11-18-50, p. 31
  Royal, regulars repeat at, 11-4-50, p. 54
  Royal spring rodeo and dairy cattle show, 3-18-50, p. 74
  Royal spring rodeo and dairy cattle show, May 6-13, 5-6-50, p. 54
Anaplasmosis disease causing heavy losses, 8-5-50, p. 71
Anderson, Senator, out for Brannan's scalp, 12-2-50, p. 26
Anemia in pigs, precaution for preventing, 3-18-50, p. 74
  in pigs, two things help prevent, 4-1-50, p. 10
Angus sires proving popular with artificial insemination customers, 9-2-50, p. 16
Animal production, feeding ideas speed, 3-4-50, p. 24
  dead, should not be dragged thru feed yards or pastures, 11-18-50, p. 22
  diseased, high at any price, 2-18-50, p. 14
  inherit tendency to grow rapidly or slowly, 7-1-50, p. 12
  stuffed, to market, inadvisability of shipping, 7-1-50, p. 12
  wild, that linger around farm buildings, beware, 8-19-50, p. p. 16
Anniversary, 36th, celebrate, 4-15-50, p. 51
Anti-Freeze disappears, check radiator if, 1-21-50, p. 20
  solutions cool motor about three-fourths as efficiently as water, 6-17-50, p. 14
Armed forces plan show, 5-20-50, p. 57
Army, if tenant goes to, 11-18-50, p. 26
Artificial insemination conference at Ames, 8-19-50, p. 55
Assets, farm capital, cows and sows as,1-7, p. 22
Atomic bomb, Wallace-Homestead poll on, 4-1-50, p. 9
  bombing, what are effects of, 12-2-50, p. 42
  project, should army handle, 2-18-50, p. 34
Auctioneer dies, 4-1-50 p. 65
Aureomycin in pig-feeding test more than doubled gains, 5-20-50, p. 8
  promotes rapid growth in baby chicks, 5-6-50, p. 20
  speeds gains, 5-20-50, p. 8
  what's lowdown on, 6-17-50, p. 16
Austria and the Netherlands, two Iowa people on exchange to, 5-6-50, p. 54
Award, superior service, USDA's, four Iowa winners of, 6-3-50, p. 47
Back-fat down, keep, 7-15-50, p. 55
Bacterin cuts down on death losses in feeder lambs, 10-7-50, p. 62
Balers, choppers and dryers new haymaking equipment, 6-17-50, p. 22
Ballots, Primary, how Iowa farmers plan to cast, 6-3-50, p. 9
Bang's disease, abortion in cows caused by, 6-3-50, p. 19
  disease, may get into herd, how, 8-5-50, p. 24
  disease, hogs, cattle and goats subject to, 5-20-50, p. 32
  disease, poll on, 3-18-50, p. 34
  disease, ring test for, 6-17-50, p. 9
  disease, ring test for, 11-4-50, p 28
  disease, should test cows for, 10-21-50, p. 34
  indemnity, resume, 8-5-50, p. 27
  test, try new, 6-17-50, p. 9
Barberry bushes big business in Iowa, rooting up, 8-5-50, p. 65
Barn, dairy, want "push-bottom", 10-17-50, p. 18
  don't burn down your, 7-1-50, p. 30
  remodeled by Jay Newlin, 1-21-50, p. 16
  loafing, for dairy cows, 2-4-50, p. 22
Barnyards, clean and orderly, protect livestock, 1-21-50, p. 29
Barrow show, 6-17-50, p. 53
  show at Austin, Minnesota, 8-19-50, p. 55
  show, Minnesota spring, 2-18-50, p. 63
  show, Minnesota state spring, scheduled for March 16-18, 3-4-50, p. 56
  Show, national, 7-15-50, p. 55
  show, national, Sept. 13-16, 5-6-50, p. 54
  show, new, 12-2-50, p. 47
  wins, Iowa, 4-15-50, p. 72
Beardsley versus Lester Gillette, 9-2-50, p. 10
Bearings, warm, take grease better than cold, 11-4-50, p. 18
Bed bugs in hen house, 12-2-50, p. 14
Bedding, extra, saves fertility two ways, 2-18-50, p. 14
Bedding for milk cows, corn stalks good, 2-4-50, p. 16
  for shipping hogs, sand recommended for, 7-1-50, p. 12
Beef awards, top herds aim at, 8-5-50, p. 56
  bulls added to Iowa studs, 9-2-50, p. 16
  calf forecasts future production, first, 7-15-50, p. 18
  cattle and land institute, Sept. 26, 6-3-50, p. 47
  cattle gains on Missouri test pastures, 9-16-50, p. 24
  cattle production might be profitable on corn belt land, possibility, 7-15-50, p. 14
  cow tips, 4-1-50, p. 65
  field day, 5-20-50, p. 67
  from grass, lots of, 5-20-50, p. 29
Four-H, all-Iowa finals in, 9-16-50, p. 36
  grade standards, USDA's new, 12-16-50, p. 23
  more, fertilized brome means, p. 5-6-50, p. 35
  prices, outlook on, 1-21-50, p. 47
  profit depends on good bull, 1-7-50, p. 43
  show gets bigger, 9-16-50, p. 22
  south boosts, 3-18-50, p. 74
  think before you leap into, 8-19-50, p. 24
  top, competes for state fair awards, 9-16-50, p. 22
Bees boost legume seed yield, 7-1-50, p. 35
  Iowa, vs. Minnesota and California, 11-4-50, p. 55
Beetles, garden, control, 7-15-50, p. 10
Belgian secretary, new, 6-17-50, p. 52
Binder, think twice before junking, 2-18-50, p. 14
Bingo has friends, 9-16-50, p. 40
Bins should be sprayed before storing grain, 6-17-50, p. 14
Birdsfoot makes tough pasture, 4-1-50, p. 23
Bishop, Frank G., joins American Jersey Cattle club, 9-2-50, p. 45
Blackleg symptoms in calves, 7-15-50, p. 14
Blackley, vaccinate calves to stop, 7-15-50, p. 49
Bloat cases, succulent pasture caused, 7-15-50, p. 30
  clover, when most likely, 5-6-50, p. 16
  danger, how to reduce, 6-3-50, p. 19
  theories advanced regarding cause of, 7-15-50, p. 30
  to prevent, tickle bossy, 7-15-50, p. 30
Bluegrass counties, more money for farmers in, 8-19-50, p. 8
Board of Trade, chances of winning on, 2-4-50, p. 16
Boars from production registry litters, prefer, 3-18-50, p. 24
Bolts, head, tractor or car, check for tightness, 1-21-50, p. 20
Bomb, farmers look at, 4-1-50, p. 9
Bonfire, don't die in 4-1-50, p. 49
Books, bulletins, etc.
  income tax information and farm account book, 1-7-50, p. 10
  fertilizer pamphlet, 1-7-50, p. 12
  simple account book, 1-7-50, p. 22
  midwest farm handbook, 1-7-50, p. 56
  poultry handbook, 3-18-50, p. 55
  poison ivy, poison oak and poison sumac, 7-1-50, p. 28
  canning booklet, 8-19-50, p. 43
  new veterinary book, 9-2-50, p. 60
  farm account book, 11-18-50, p. 29
  farm work simplification, 12-2-50, p. 8
  farm account book, 12-2-50, p. 18
  farm account book, 12-16-50, p. 18
Boone county, keep an eye on, 6-3-50, p. 5
  borer fight, 7-1-50, p. 5
Borax on manure pile, use, 6-17-50, p. 33
Borden agricultural scholarship, winner of, 2-4-50, p. 51
Borer control best bet if you don't like to pick up dropped ears, 8-5-50, p. 16
  corn, calls for earlier corn picking, 3-4-50, p. 10
  damage, inspect, 7-15-50, p. 31
  fight, Boone's, 7-1-50, p. 5
  fight, keep record of, 7-1-50, p. 34
  moths are out, 6-3-50, p. 42
  station to Ankeny, 3-4-50, p. 61
  baby borers, be ready to kill, 6-17-50, p. 22
  bad weather for, 8-19-50, p. 10
  DDT called answer to, 1-21-50, p. 14
  four-point plan to whip, 4-1-50, p 21
  go? where did, 11-4-50, p. 8
  killed by use of three nozzles to row, 6-3-50, p. 1
  most harmful, first-brood, 5-20-50, p. 19
  Ready for the, 6-3 50, p. 5
  Two sprays kill most, 3-4-50, p. 34
  winter didn't kill, 5-20-50, p. 57
Boron, Iowa soils still have, 4-15-50, p. 67
Bowles says "Yes", Brannan "No", 10-7-50, p. 30
Boys work too hard, do, 7-1-50, p. 1
Bran stored near grain bins invites insects, 7-1-50, p. 12
Brannan-Kline Ruckus, 3-4-50, p. 20
Brannan plan, administration fights for, 3-4-50, p. 54
  farm opinion on 6-17-50, p. 8
  race with Hickenlooper will give farm verdict on, 6-17-50, p. 28
  Truman supporting, 4-15-50, p. 26
  says "Support Stock", 6-3-50, p. 26
  time's a-wasting says, 7-1-50, p. 32
Brannan's plan, 6-17-50, p. 8
  way, 11-18-50, p. 18
Breed cows at right time, 4-1-50, p. 51
  sows in December to beat fall decline in hog market, 12-16-50, p. 14
Breeder dies, noted, 9-16-50, p. 80
Breeders, Iowa, win at cattle congress, 10 21-50, p. 58
  shy, why some cows are, 3-18-50, p. 68
Breeding and marking of sows, individual, saves time and pigs, 12-2-50, p. 15
  artificial, has not changed ratio of make to female calves, 8-5-50, p. 24
  delay, 4-1-50, p. 65
  delayed, will cut down heifer death rate, 4-1-50, p. 13
  problems, sterility clinics give help on, 2-18-50, p. 63
  time for sows, 1-7-50, p. 10
Broiler prices advanced in July, 9-2-50, p. 45
  prices expected to decline, 4-15-50, p. 68
Brome, fertilized, means more beef, 5-6-50, p. 35
  grass good hog pasture, 11-4-50, p. 29
  grass seed crop, grow, 5-6-50, p. 55
Brood sow rations, variety good thing in, 2-18-50, p. 14
  sows, how to pick, 11-4-50, p. 5
Brucellosis, call veterinarian if you suspect, 6-3-50, p. 16
  hogs, cattle and goats subject to, 5-20-50, p. 32
  in cattle, no specific cure for 9-16-50, p. 24
  -infected cows, one abortion usual thing in, 9-16-50, p. 24
  wear rubber gloves when handling hogs suspected of having, 9-16-50, p. 24
Bruises on livestock means lower price, 7-1-50, p. 12
Brush and trees cleared for corn crop, 8-19-50, p. 32
  new, for every painting job unnecessary, reasons why, 8-5-50, p. 24
Bubbles in buildings, use, 8-19-50, p. 53
Buck-brush all right for ditches and washouts, 3-4-50, p. 58
Bugs attack grain, fumigate if, 2-18-50, p. 36
  chemicals, fight, 1-7-50, p. 8
Building material to fit the job, 4-1-50, p. 26
  should be planned to save labor, 4-1-50, p. 60
Bulb, heat, cost of current for 250 watt, 2-4-50, p. 16
Bulbs, heat, safety points to check when using, 3-18-50, p. 26
Bulls, dairy, new water to rate, 7-15-50, p. 26
  dairy, proved thru DHIA records in Iowa, 7-15-50, p. 45
  top, boost production, 10-7-50, p. 28
Bunker Hill, off to, 7-15-50, p. 1
Burn off fields, don't need to 4-1-50, p. 5
Burning homes in Iowa, winter is big season for, 10-17-50, p. 20
  off pasture, effects of, 4-1-50, p. 13
Business looks rosy now, 5-20-50, p. 12
Butter, cheese, dried milk surpluses pile up, 8-5-50, p. 62
  consumption in Iowa dropped in past 10 years, 12-2-50, p. 26
  do Iowa farmers want production payments on, 6-17-50, p. 8
  eat up, 11-4-50, p. 16
  may be in trouble for some months yet, 7-15-50, p. 44
  nobody hoards, 8-5-50, p. 62
  output at 27-year low, 12-16-50, p. 31
  production higher than year ago, 5-20-50, p. 21
  stores piling up, 7-15-50, p. 20
  support levels in effect until March 31, 1951, 5-20-50, p. 12
  surplus, 11-18-50, p. 19
Buttermilk for growing pigs, 5-6-50, p. 39
  Oleo fight, dairy industry lost, 2-4-50, p. 29
  piling up in cold storage, 3-18-50, p. 20
  prices steady, milk price supports hold, 2-18-50, p. 22
  production going up, 4-1-50, p. 59
  production on rise, 4-1-50, p. 16
  scandal on the way, 3-18-50, p. 20
CCC Appropriations goes on, struggle over, 6-3-50, p. 26
Calendar, hog, 7-15-50, p. 49
Calf auctions producer, 11-4-50, p. 10
  first, forecasts future production, 7-15-50, p. 18
  first, tells how good a producer heifer will be, 6-3-50, p. 19
  losses are lowest, when, 10-7-50, p. 16
  losses, cut your winter, 11-4-50, p. 21
  weights, first compared to weights of other calves, 7-15-50, p. 18
Calves, April, when to breed cows for 7-1-50, p. 12
  breeding time required for, 11-18-50, p. 22
  Co-ops sell, 11-4-50, p. 1
  dead, cost too much, 3-4-50, p. 61
  do best with hay, grain and protein supplements, 9-16-50, p. 24
  feed for 5-20-50, p. 65
  450-pound, winter ration for 11-18-50, p. 22
  getting plenty of skim-milk and alfalfa hay require no grain, 12-2-50, p. 15
  need grain, 4-1-50, p. 66
  need twice as much hay as grain, 2-4-50, p. 16
  new-born, diseases from chilling, 1-21-50, p. 20
  to feed-lots, direct method of getting, 11-4-50, p. 10
Camp for Four-H club members, 2-4-50, p. 51
  for Iowa Four-H members one step closer, 8-19-50, p. 55
Canada thistle in oats must be stopped before it blooms, 6-17-50, p. 14
Cane makes good silage, 4-15-50, p. 67
Carburetor on car or tractor wastes fuel, bad adjustment of, 6-17-50, p. 14
Carcass grade suits him, 9-2-50, p. 22
  test, barrow show repeats, 10-7-50, p. 63
Carl, Leslie, leaves crop reporting, 11-4-50, p. 15
Cars on road, safe distance between, 3-4-50, p. 58
Cash receipts, farm, for first three months of 1950, 4-1-50, p. 53
Cash receipts, farmers', in relation to income of industrial workers (Chart), 12-2-50, p 20
Cat or kitten can teach little pigs to drink milk, 11-18-50, p. 22
Cattle and hogs showed increases on Iowa farms, 3-4-50, p. 56
  around, never saw so many, 9-2-50, p. 13
  beef, 11-18-50, p. 19
  beef, start a herd of, 3-18-50, p. 28
  big, eat grain, 2-18-50, p. 8
  coming to market, indicate large number of, 5-20-50, p. 32
  congress breaks record, 10-21-50, p. 58
  disease, 6-17-50, p. 52
  dual-purpose, to win $4,000, 8-5-50, p. 33
  fat, on market this winter, should be, 7-15-50, p. 44
  fattening period, protein feed recommended at start of, 10-7-50, p. 16
  feeder, in-shipments, December, lowest since 1940, 1-21-1950, p. 45
  feeders day, annual scheduled for June 16, 6-3-50, p. 47
  feeding business, lot of pitfalls for newcomer in, 8-19-50, p. 24
  feeding contract of Hormel Packing company, 3-18-50, p. 16
  feeding program should net a profit this year, 12-16-50, p. 31
  feeding prospects, 12-2-50, p. 47
  feeding, takes risk out of, 3-18-50, p. 16
  fewer, going to market now, 6-17-50, p. 51
  from out of state, certain regulations in bringing, 9-2-50, p. 13.
  healthy, 8-5-50, p. 68
  lightweight, look like best buy, 8-19-50, p. 56
  loading, points to watch when, 2-4-50, p. 11
  marketings, smaller, 2-18-50, p. 22
  meat-and-milk, keen competition at Iowa fair for, 8-5-50, p. 33
  on feed in Iowa, 2-4-50, p. 51
  on feed in Iowa, Nebraska and Illinois up 42 per cent, 8-5-50, p. 65
  on feed on Iowa farms 37 per cent more than year ago, 8-5-50, p. 65
  on feed 21 per cent more than year ago, 11-4-50, p. 55
  on grain feed in Iowa, 5-6-50, p. 54
  pay out, will, 10-21-50, p. 8
  plentiful supplies of well-finished, 11-18-50, p. 25
  prices next year, firm bottom under, 9-16-50, p. 41
  prices of upper grades to decline 4-15-50, p. 68
  prices, strong demand for meat will prevent decline in, 5-20-50, p. 12
  sales at peak probably in August or September, 3-18-50, p. 69
  shipping, points to watch when, 2-4-50, p. 11
  short-fed, look better, 11-18-50, p. 25
  show attracts blue-ribbon entries from many states, state fair, 8-5-50, p. 56
  slow gains sometimes cheaper on, 2-18-50, p. 14
  that stampede, no fence will hold, 10-7-50, p. 16
  top, $15,000 in prize money draws, 8-5-50, p. 33
  when to buy, 9-2-50, p. 13
  young, if you have lots of roughage buy, 2-18-50, p. 8
  young, should be inspected weekly, 7-1-50, p. 12
Census big help to baby sitters, 5-20-50, p. 18
  bureau, special form to fill out for, 3-18-50, p. 22
  taker, feelings of a 5-20-50, p. 18
Champions at Missouri, pick, 9-16-50, p. 38
Checks in corn fields, several causes of 5-6-50, p. 16
Chemical control measures on flies, don't relax, 8-5-50, p. 39
  orders, place now, 5-6-50, p. 35
  weed killers, number of farmers who used (map), 6-3-50, p. 48
Chemicals borer-killing, 1-21-50, p. 14
  fight bugs, 1-7-50, p. 8
  for fly control give best results at beginning of season, 5-20-50, p. 24
  kill crop pests, 4-15-50, p. 58
  recommended for stored grain, 3-4-50, p. 58
  weed, 2-18-50, p. 31
Chicago feeder cattle show and sale Oct. 26-27, 9-16-50, p. 25
Chicks, baby, farmers buying more, 4-1-50, p. 17
Chicks hatched in July, 9-2-50, p. 45
Chiggers, dust or spray for, 8-5-50, p. 34
Chinch bugs, use Toxaphene on, 8-5-50, p. 39
Chlordane, Toxaphene good grasshopper killers, 7-15-50, p. 10
Cholera breaks worry farmers, 8-5-50, p. 26
  hog, keep fighting, 5-6-50, p. 12
  hog, two-thirds of hog raisers vaccinated against, 10-17-50, p. 26
  7 to 12 days after exposure hogs take, 5-20-50, p. 32
  two methods for vaccinating pigs against, 7-1-50, p. 12
Choppers, balers, dryers replace old haymaking methods, 6-17-50, p. 22
Chore, first, on winter mornings, 12-16-50, p. 14
Chores easier on farm, arrangement for making, 11-4-50, p. 18
  lighter, in '60, 2-4-50, p. 14
Choring time cut by efficient arrangements, 4-1-50, p. 60
Christmas to many people, 12-16-50, p. 1
City ways? farmers taking, 12-16-50, p. 5
Classifications, wants to appeal, 11-18-50, p. 26
Clayton, John, on European visit, 11-4-50, p. 48
Cleaning, mom starts, 4-1-50, p. 1
Clods form if ground too wet or too dry, 4-15-50, p. 32
Clover bloat most likely, when, 5-6-50, p. 16
  Crimson, not winter hardy, 6-17-50, p. 27
  fields left for seed should not be pastured, 6-17-50, p. 14
  or alfalfa, second-crop, usually makes best seed crop, 6-3-50, p 19
  or alfalfa seed crops mean extra cash, 6-3-50, p. 19
  red, makes big seed crop, 10-17-50, p. 24
  seed crop, record, 11-4-50, p. 23
  should be inspected twice to determine survival, 4-1-50, p. 13
  when to cut, 6-17-50, p. 14
Coal no good for hogs, 6-3-50, p. 19
Cobs for winter feed, 5-6-50, p. 28
Cobs, ground, put good gains on steers, 5-6-50, p. 28
Cobs under apron chain when spreading cobs, way to prevent trouble with, 11-18-50, p. 22
Cockleburs poisonous to hogs, 4-15-50, p. 32
College goes to the country, 6-17-50, p. 26
Colostrum, good for older calves, 3-4-50, p. 58
  helps raise calves, 4-15-50, p. 36
Combine, points to check on, 7-1-50, p. 12
  or threshing machine may take arm or hand, 7-15-50, p. 14
  trouble, make note of, 8-19-50, p. 16
Combining, who pays for, 7-1-50, p. 20
Commodity Credit Corporation, loans made by 5-20-50, p. 61
Concrete made with ground corn cobs, qualities of, 10-7-50, p. 16
  slowly cured is best, 5-6-50, p. 16
  when to paint, 9-2-50, p. 31
Congress, new, 11-18-50, p. 18
Conservation and production practices of Future Farmers of America, 5-6-50, p. 54
  field day, 9-2-50, p. 48
  practices showed increase, 1-21-50, p. 45
Contour farming made difference in yields, soil erosion, 8-19-50, p. 8
Contouring makes bigger crops, 11-4-50, p. 31
Control, two stages in, 2-18-50, p. 16

Crop Insurance Corp., Federal, has new directors, 4-1-50, p. 53
Crop land burned off to control insects, hurts land, 2-4-50, p. 16
Crop plans, four, 2-18-50, p. 5
Crop returns increased with weed control, 5-6-50, p. 8
CROP Week, give farm products during, 11-4-50, p. 30
Crop yields boosted by dryers, 8-5-50, p. 40
Crops, bigger, contouring makes, 11-4-50, p. 31
Crops, farm, find new uses for, 4-15-50, p. 12
Crops, 1951, advantages of early planning of, 12-2-50, p. 15
Crops, sod, hold more soil, 11-18-50, p. 23
Crusts on plowed fields need rotatation with more grass, 5-20-50, p. 32
Crystal Violet or BTV vaccine newer method for vaccinating, 7-1-50, p. 12
Cultivator shovels to shop, take, 4-1-50, p. 13
Cultivators ready for field, suggestions for making, 5-20-50, p. 32
Cutworms may hit garden, 5-6-50, p. 51
spraying kills, 3-18-50, p. 65
wireworms, new chemicals give good control of, 4-1-50, p. 24

Corn

Corn, acre of, hours to produce, 2-4-50, p. 1
acreage allotments, cash grain area farmers plan to comply with, 4-15-50, p. 10
acreage allotments, 1950, 1-21-50, p. 5
acreage allotments, stockmen cool to, 4-15-50, p. 22
acreage allotments, what grain farmers plan to do on, 4-15-50, p. 10
acreage, cut doesn't scare them, 1-21-50, p. 5
acreage cut, grain farmers lead in, 7-1-50, p. 8
acreage discussed, 3-4-50, p. 36
acreage, farmers express opinions on cutting, 1-7-50, p. 5
acreage reduced 23% takes 5 years for feed units to catch up, 1 7-50, p. 10
acreage, will you cut, 1-7-50, p. 5
acres, farmers advised to cut, 3-4-50, p. 36
acres into soybeans, surplus, still get corn loan, 2-4-50, p. 29
acres must not exceed allotment, 3-18-50, p. 26
acres, sharp drop in, 4-1-50, p. 22
acres, they cut, 7-1-50, p. 8
allotments are made, how, 3-4-50, p. 16
allotments, farmers staying within, 7-1-50, p. 8
allotment program applies in 837 counties, 1-21-50, p. 26
allotments to be generous in 1951, 12 2-50, p. 26
and cob, ground, feed cattle, 11-4-50, p. 22
and cob meal better than shelled corn for calves, 7-15-50, p. 14
and cob meal good supplement for young cattle, 6-3-50, p. 19
borer brood coming, there's a second, 8-5-50, p. 16
borer control, best planting dates for, 5-6-50, p. 16
borer control, 1950 rules for, 1-21-50, p. 14
borer control, proper timing of treatment most important in, 6-17-50, p. 32
borer control, recommendations for, 4-15-50, p. 58
borer egg mass counts, keep eye on, 8-19-50, p. 10
borer egg masses, biggest corn is place for, 7-1-50, p. 12
borers held back by weather, second brood of, 8-19-50, p. 10
borer infestation survey, 1950 fall, 11-4-50, p. 8
borer kills, effective, 4-15-50, p. 24
borer, new diet for, 10-7-50, p. 37
borer research headquarters at Ankeny, 3-4-50, p. 61
borers reduced yields in 1949, 4-1-50, p. 55
borers, whole community fights, 5-6-50, p. 31
can beat frost, 9-2-50, p. 9
cheap, hurts them, agree, 4-1-50, p. 31
clean, weeders help make, 5-20-50, p. 20
cobs, ground, for hog bedding, 3-4-50, p. 58
cobs, ground, in concrete, 10-7-50, p. 16
cobs, ground, vs. straw, 3-4-50, p. 58
cobs used as bedding will settle dust on hog house floors, 8-5-50, p. 24
coming, how's your, 8-5-50, p. 8
consumed by cattle and long-fed calves, 10-7-50, p. 59
cribbing, move elevator spots often when, 11-4-50, p. 18
crop getting off to poor start, 6-3-50, p. 26
crop production, Iowa, 1949, 1-21-50, p. 45
crops, good August weather saved, 8-5-50, p. 8
crops in eight cool summers, (Chart), 9-2-50, p. 9
cultivate, how often do you, (Poll) 6-17-50, p. 33
cultivation can be delayed by use of rotary hoe or weeder, 5-20-50, p. 32
cut means rotation upset, 2-18-50, p. 5
damaged of 2, 4-D hits growth center, 7-1-50, p. 12
digestive troubles may result changing from old to new, 9-16-50, p. 24
dry ear, amount of water in bushel of, 10-7-50, p. 16
dry, need cribs to make, 3-4-50, p. 10
drying, artificial, items to note in, 9-16-50, p. 24
drying methods, experimental, 5-6-50, p. 18
drying, quonset type crib for, 11-18-50, p. 44
drying tests, 5-6-50, p. 18
ear, moisture percentage allowable for safe storage of, 11-18-50, p. 22
Early Hybrid, should be used for later planting, 5-20-50, p. 32
fed to 150 pound hogs, grinding will save, 11-18 50, p. 22
field to produce good crop, things you can do to get, 4-15-50, p. 5
fields from corn borers, steps necessary to protect, 4-15-50, p. 24
fields gas, give, 7-15-50, p. 5
fields should be disked often in spring, 3-18-50, p. 26
fix your crib to dry, 9-16-50, p. 26
fodder makes absorbent, long-wearing bed, 8-19-50, p. 16
for cribbing, safe moisture content for, 10-7-50, p. 16
for feeding, buy now, 12-2 50, p. 15
from U. S. crop under government price supports, 6-17-50, p. 47
go slow on switch to new, 10-7-50, p. 14
good quality, scarce next spring, 9-16-50, p. 41
grew, before Columbus, 5-6-50, p. 38
grower, master, Don Radda, 3-4-50, p. 56
growers with drying equipment ahead, 10-7-50, p. 24
high-moisture, elevator spout should be moved often when cribbing, 10-21-50, p. 38
how feed, 11-4-50, p. 22
how's your, 10-7-50, p. 1
in lamb rations can be hngh, 2-18-50, p. 14
Indians developed practically all basic varieties, 5-6-50, p. 38
is reduced, no idle acres when, 2-4-50, p. 26
it's critical time for, 6-17-50, p. 51
juicy, makes best silage, 9-2-50, p. 18
June temperature, July rainfall most important for, 6-17-50, p. 51
kernels, round or flat, no difference in yields planting, 5-6-50, p. 16
land, measure, if close to acreage allotment, 4-1-50, p. 13
land taken out, what to plant on 2-4-50, p. 26
less, more hogs, 12-2-50, p. 47
less work to grow, 2-4-50, p. 1
loan isn't too high, 4-1-50, p. 31
loans, earlier due date on, 6-3-50, p. 23
loans? for or against, 12-2-50, p. 26
market outlook on, 1-2-50, p. 47
may be second wettest of record, 10-21-50, p. 54
moisture content high in, 11-18-50, p. 22
moisture percentages and keeping qualities, 11-4-50, p. 18
more, 11-18-50, p. 19
more, in '51, 10-17-50, p. 24
most bushels of, plant food and moisture get, 4-15-50, p. 5
needs to hurry, 8-5-50, p. 8
new, chopped stalk and all makes good starting feed, 9-16-50, p. 24
new-crop, can be shelled for winter use without danger of spoilage, 12-2-50, p. 15
new, stalk and all will supplement short pastures, 9-2-50, p. 31
1949, under price supports, 11-4-50, p. 55
old, three choices on what to do with 8-5-50, p. 12
on rich land should be thickly planted, 4-15-50, p. 32
100-bushel, what it takes for, 3-4-50, p. 29
or soybeans, plant, 5-6-50, p. 34
overripe, makes poor silage, 9-2-50, p. 18
per hill, average stand of stalks of, 5-20-50, p. 32
picker guards should be replaced, 10-21-50, p. 38
picker replacements should be ordered now, 10-21-50, p. 38
picking, corn borer calls for earlier, 3-4-50, p. 10
picking time, sorting of several kinds may be necessary at, 11-4-50, p. 18
picking, two goals to have in mind when, 10-21-50, p. 9
planted at different dates, tests comparing, 4-15-50, p. 24
planting date affects yield, 5-6-50, p. 16
plantings, thin, fail to use all available fertility, 5-6-50, p. 26
plants, more, for each acre, 2-4-50, p. 6
plenty of, 11-4-50, p. 16
plow, good farmers don't, 6-3-50, p. 21
plow, how often do you? 6-17-50, p. 33
prices by winter, look for higher, 11-18-50, p. 25
prices depressed by poor-quality corn, 10-17-50, p. 14
prices likely not to go above $1.40 to $1.50, 2-18-50, p. 22
prices will be rising by spring, 12-16-50, p. 31
proper way to cultivate, 6-17-50, p. 23
right plant food, give 1-21-50, p. 18
rotation, five-year, advantages of 1-7-50, p. 10
row, one extra, could hurt, 4-15-50, p. 1
save, the and protect your life, 10-21-50, p. 9
sealed, what to do with, 8-19-50, p. 14
seed, need for planting, 4-15-50, p. 32
shallow cultivation of, proves better than "deep and close" method, 6-3-50, p. 21
shelled, experiments for reducing moisture in, 7-15-50, p. 14
shelled, in silo, 9-2-50, p. 49
shelled, moisture content allowable for safe storage of, 11-18-50, p. 22
shelled, offers chance for pests, 2-18-50, p. 36
shelled, reasons for checking, 6-3-50, p. 19
shift from, to beans, hay, 4-15-50, p. 10
should be put in silo or shock immediately after frost, 9-16-50, p. 24
silage worth for dairy cows, 10-21-50, p. 38
soft and high-moisture, definition of 9-2-50, p. 31
soft, may be used as fodder, silage or ear corn silage, 9-16-50, p. 28
soft, pricing, for feeding purposes, 11-4-50, p. 18
soft, what to do with, 9-16-50, p. 5
sorting at elevator may be profitable, 10-21-50, p. 38
sound, freezing weather should hold off until after October 15, for, 9-2-50, p. 9
sprayed with DDT should not be fed to milk cows, 9-16-50, p. 24
stalks, chopped, makes good bedding, 2-4-50, p. 16
stands hurt by crusts after heavy rains, 5-20-50, p. 32
stands, thick, top yields from, 5-6-50, p. 26
start early this year to save old, 10-7-50, p. 14
stocks in United States, 11-4-50, p. 16
suggested methods for saving, 10-7-50, p. 5
suggestion for drying corn, 10-21-50, p. 38
supplies down, 10-21-50, p. 54
than ever before, more old, 8-5-50, p. 12
this fall, feed new, 10-7-50, p. 16
this fall, little less, 8-19-50, p. 56
this year, Iowa farmers growing less, 8-5-50, p. 65
three classes of, regulations on 8-19-50, p. 14
to reserve under war conditions, amount of, 7-15-50, p. 4
under price support agreements, three classes of, 6-3-50, p. 23
varieties, ears dropped on all, 1-21-50, p. 19
volunteer, out of soybean fields, hand-work necessary to take, 9-2-50, p. 31
volunteer, troublesome, 2-4-50, p. 16
where'll we put, 8-5-50, p. 12
wet, as silage, store, 9-16-50, p. 28
wet, makes good steer feed, 9-16-50, p. 28
wet, save waste from, 10-7-50, p. 5
wettest, should go into hog or cattle feeding cribs, 9-2-50, p. 31
with 23 to 25 per cent moisture can be left in field until spring, 12-2-50, p. 15
yellow, short of nitrogen, 6-17-50, p. 5
yield contest, Iowa, division of Iowa for, 3-4-50, p.30
yield, Iowa, per acre, 2-18-50, p. 32
yield per acre, how to find, 7-1-50, p. 35
yield test, Illinois 1949, 4-1-50, p. 55
yield test, 1949, shows New Hybrids out-score, 3-4-50, p. 30
yields, find what limits, 4-15-50, p. 5
yields, moisture and nitrogen two factors which limit, 5-6-50, p. 16
DDT available, may not be enough, 6-3-50, p. 1
called answer to borers, 1-21-50, p. 14
recommended for corn borer control, 3-4-50, p. 34
sprayed corn should not be put in silo, 9-16-50, p. 24
spraying really paid, 6-3-50, p. 5
used on first brood corn borers, 7-15-50, p. 31
DHIA milk, fat average up, 10-7-50, p. 29

Ditches this month, fill, 8-5-50, p. 36
Ear-mark gilts for future breeding, 4-1-50, p. 48
Egg production, hold down temperature to hold up, 6-3-50, p. 22
Exercise important for sows, 2-4-50, p. 34
Farm equipment in shape, May is time to put, 5-6-50, p. 30
Farm shop saves time and money, 3-4-52, p. 52
Farrowing, fall, hinged panels make inexpensive shelter for, 9-2-50, p. 32
fall, prepare sows for, 8-5-50, p. 36
pens, how panels are attached in, 9-2-50, p. 32
sows on pasture in warm weather, have, 8-5-50, p. 36
Feeders and fountains should be put in shade, 7-1-50, p. 33
Fences, electric, easily short-circuited by growth in fencerows, 7-1-50, p. 33
Fencing, electric, will work if grass is kept down, 8-5-50, p. 36
work, complete, when unable to get in field, 4-1-50, p. 48
Fertilizer needs, have soil samples tested for, 8-5-50, p. 36
Fertilizer needs in corn, look for signs of, 9-2-50, p. 32
paying on your farm, how to check if, 5-6-50, p. 30
should be ordered early, 1-7-50, p. 26
supply for 1951, order, 11-4-50, p. 49
Fire hazards, keep eyes open for, 12-2-50,. p. 19
Fires, suggestions for preventing, 8-5-50, p. 36
Fuel line connections, leaky, waste fuel, 8-5-50, p. 36
Gate, small, saves time and wear on main gate, 3-4-50, p. 52
Gates and fences, fix temporary, 10-7-50, p. 36
Gilts, fall, worm, before breeding, 4-1-50, p. 48
Grain and seed, stored, inspect regularly, 11-4-50, p. 49
direct from granary, cattle self-fed, 11-4-50, p. 49
ration of dairy cows needs adjusting to pasture conditions, 7-1-50, p. 33
Harvesting equipment ready, in September get, 9-2-50, p. 32
Hay cut at proper time gives more protein per acre, 6-3-50, p. 22
Hay now, buy, 10-7-50, p. 36
Haying, cut down travel during, 6-3-50, p. 22
Hen houses should be ventilated in hot weather, 6-3-50, p. 22
Hens, old, cull and sell, 8-5-50, p. 36
Hog house ventilation, check, 3-4-50, p. 52
man, top-notch, has key to biggest farm profits, 1-7-50, p. 26
wallow, movable, easier to dip pigs for mange, 8-5-50, p. 36
House cleaning can be started early, 1-7-50, p. 26
Kitchen, farm, save time and steps in, 1-7-50, p. 26
Labor loads, June is month of peak, 5-6-50, p. 30
Lamps, heat, big help in saving pigs, 2-4-50, p. 34
Legume seedings can be pastured lightly during fall months, 8-5-50, p. 36
Livestock equipment, build, during winter months, 12-2-50, p. 19
Machinery, farm, repair during winter months,, 12-2-50, p. 19
repair, time now for, 2-4-50, p. 34
should be checked before harvest time, 7-1-50, p. 33
Manure, haul, on next year's corn ground, 12-2-50, p. 19
spreader to scatter corn, use, 11-4-50, p. 49
Milk rooms, where to build, 9-2-50, p. 32
Nitrogen, how to determine land is short of, 9-2-50, p. 32
Nursery stock should be ordered early, 3-4-50, p. 52
Oats, seed, should be treated and re-cleaned, 3-4-50, p. 52
Oil cans worth hours, 1-7-50, p. 26
Pasture, fall, seed rye in August for, 8-5-50, p. 36
hold off turning cattle, 4-1-50, p. 48
improvement, start, 10-7-50, p. 36
is flush, cows don't need as much grain when, 5-6-50, p. 30
rye, best for supplementary, 8-5-50, p. 36
spring, seed rye or wheat for 10-7-50, p. 36
Pig, baby, disowned, care of, 1-7-50, p. 26
Pigs, confined, should be protected from anemia, 3-4-50, p. 52
Pigs, early, first two weeks critical time for, 2-4-50, p. 34
early, for August or September markets, head, 2-4-50, p. 34
fall, need well-bedded comfortable quarters, 12-2-50, p. 19
June, shade important for 5-6-50, p. 30
little, have no business in old lots, 6-3-50, p. 22
planning ahead for, pays dividens, 2-4-50, p. 34
separated according to age, to keep, 9-2-50, p. 32
spring, when to sell, 9-2-50, p. 32
valuable hints for raising, 1-7-50, p. 26
Planting and seeding, critical period comes after, 5-6-50, p. 30
Plow early for corn, 4-1-50, p. 48
Plowed, fall, figure out which fields will be, 7-1-50, p. 33
Protein, plenty of, fed to sow, means larger and livelier litter, 2-4-50, p. 34
Pullets, cull early, 12-2-50, p. 19
get rid of underdeveloped and underweight, 11-4-50, p. 49
late in maturing, cull, 10-7-50, p. 36
molting, cull, 11-4-50, p. 49
should be housed, when, 9-2-50, p. 32
watch, for signs of laying, 8-5-50, p. 36
Rape, seed, for supplementary hog pasture, 5-6-50, p. 30
Raspberry canes should be destroyed, 8-5-50, p. 36
Rats, control, 10-7-50, p. 36
Read and catch up on new goings, on in farming, 12-2-50, p. 19
Rye for spring pasture, seed, 10-7-50, p. 36
Salt in pasture, keep plenty, 6-3-50, p. 22
Seed, clean key to successful weed control, 7-4-50, p. 34
Seeding and fertilizer equipment should be checked, 3-4-50, p. 52
early, extremely important, 4-1-50, p. 48
Self-feed hogs and save time, 8-5-50, p. 36
Shade and water August musts to insure hog profits, 8-5-50, p. 36
necessary for hogs, 6-3-50, p. 22
Silage, grass, three advantages of, 6-3-50, p. 22
Silo, trench, three advantages of, 6-3-50, p. 22
Soil samples tested for fertilizer needs, have, 8-5-50, p. 36
saving jobs get priority in March, 3-4-50, p. 52
Sows, brood, alfalfa a must for, 1-7-50, p. 26
brood, feed plenty of alfalfa to, 11-4-50, p. 49
brood, should be brought up in flesh, 6-3-50, p. 22
need exercise, 2-4-50, p. 34
pregnant, need plenty alfalfa or clover hay, 12-2-50, p. 19
Soybeans and Sudan tops for summer seeding on waste areas, 6-3-50, p. 22
store, if price breaks at harvest time, 10-7-50, p. 36

Steering Holstein bull calves good way to cash in on favorable beef outlook, 11-4-50, p. 49
Steers, common, and fall pigs should be on full feed in December, 12-2-50, p. 19
Straw should be removed if small grain is combined, 7-1-50, p. 33
Stubble fields, clip, 8-5-50, p. 36
Stumps, war on, 6-3-50, p. 22
Sudan and soybeans tops for summer seeding on waste areas, 6-3-50, p. 22
  grass makes top-notch summer pasture, 5-6-50, p. 30
Tile, drain, order, 10-7-50, p. 36
  outlets, clean and repair, 4-1-50, p. 48
Tomatoes produce more clean fruits if mulched with clean straw, 6-3-50, p. 22
Tractor engine should be cleaned off occasionally, 8-5-50, p. 36
  fuel line connections, leaky, waste fuel, 8-5-50, p. 36
Vaccinate fall pigs, 10-7-50, p. 36
Wallows help make pork, portable hog, 8-5-50, p. 36
  hog, movable, easier to dip pigs for mange, 7-1-50, p. 33
Water for pigs, shallow wells solves problem of, 5-6-50, p. 30
  hogs, how to cut time needed to 5-6-50, p. 30
  hogs need in hot weather, don't underestimate amount of, 7-1-50, p. 33
  important for young chickens, 6-3-50, p. 22
  pipes winter protection, give, 10-7-50, p. 36
  supply for laying flock, automatic, 9-2-50, p. 32
  system, check, to handle livestock on pasture, 4-1-50, p. 48
Watering of hog and poultry can be combined, 4-1-50, p. 48
Waterways, grass, establish with timothy, brome, redtop, rye and blue grass, 8-5-50, p. 36
Weed control, clean seed key to successful, 2-4-50, p. 34
Weeds, noxious, last spraying of, 9-2-50, p. 32
Wheat, winter, for spring pasture, seed, 10-7-50, p. 36
Will, when to make a, 12-2-50, p. 19
Winter heating season, get ready for, 9-2-50, p. 32
Worm fall gilts before breeding, 4-1-50, p. 48

Research

Aldrin is bug-killing chemical, 2-4-50, p. 30
  USDA approves, 9-16-50, p. 43
Alfalfa with odor sets more seeds, 5-20-50, p. 60
Antibiotics, announce more, 11-18-50, p. 24
  may be missing link, 5-6-50, p. 23
Arsenic trioxide sterilizes soil, 2-4-50, p. 30
  acid, third growth stimulator, 6-3-50, p. 43
BHC applications may cut soil productivity, 5-6-50, p. 22
Beef grains from grass cheap, 6-17-50, p. 46
Blue grass seed, dust, spray boost, 3-4-50, p. 62
"Booster" found, third, 6-3-50, p. 43
Borers, why does some corn resist, 1-7-50, p. 40
Bromegrass, develop new, 8-19-50, p. 52
Brush clearing helps game, 3-18-50, p. 64
  control, report on dormant, 4-1-50, p. 32
  controlled by spraying during dormant season, 1-7-50, p. 40
  dormant, now you can spray, 1-7-50, p. 40
  kill, in wintertime, 12-2-50, p. 21
  new type esters kill, 3-18-50, p. 64
Bug killer, new one-shot, 9-16-50, p. 43
Bug-Killers developed, two more, 2-4-50, p. 30
  turn plant juices into, 3-18-50, p. 64
Calves, dairy, raised without milk, 5-6-50, p. 22
Canners, new help for, 6-3-50, p. 43
Chemical adds zip to poultry rations, 1-7-50, p. 40
Clover not bitter, new sweet, 5-20-50, p. 60
  weevil, DDT kills, 5-6-50, p. 23
Cobalt helped fatten hogs, 10-7-50, p. 22
Corn cob market, broaden, 6-17-50, p. 46
  dried, soft, good feed, 12-2-50, p. 21
  drying, lower costs in, 8-5-50, p. 52
  in cover crop, plant, 7-15-50, p. 29
  may be harvested with combine, 2-18-50, p. 29
  new race of rust may have attacked, 10-7-50, p. 22
  resist borers, why does some, 1-7-50, p. 40
  seed, in cold storage, 10-21-50, p. 60
  stalks, sugar from, 3-4-50, p. 62
  stover mulch boosted soybean yields, 10-7-50, p. 22
Cover crops used in tests, 7-15-50, p. 29
Cows, dairy, old judging notion disproved regarding, 2-4-50, p. 30
Crabgrass killer, find, 7-1-50, p. 16
Creep-feeding helps pigs, 5-6-50, p. 22
Cross Angus and Herefords, 7-15-50, p. 29
Crossbred milk cows, test, 6-17-50, p. 46
DDT applications may cut soil productivity, 5-6-50, p. 22
  in soil, don't worry about, 6-17-50, p. 46
  kills sweet clover weevil, 5-6-50, p. 23
Dieldrin is bug-killing chemical, 2-4-50, p. 30
Esters kill brush, new type, 3-18-50, p. 64
Ewes breed twice a year, 12-2-50, p. 21
Feeding, pushbutton, may have farm piped for, 10-7-50, p. 22
Fertilizer, apply quack killer with, 5-20-50, p. 60
  profitable where soil testing system is followed, 2-18-50, p. 29
Fertilizers, phosphate, study factors affecting efficiency of, 4-1-50, p. 32
Flax useful as nurse crop, 4-1-50, p. 33
Foot-and-mouth disease, no laboratory for, 11-18-50, p. 24
Frost, artificial, for beans, 9-16-50, p. 43
Fruit on trees, keeps, 6-17-50, p. 46
Furfural from production of corn cobs and oat hulls, 6-17-50, p. 46
Gonadotrophin hormone treatment used for breeding ewes, 12-2-50, p. 21
Grain, new protection for, 8-19-50, p. 52
Grass, beef grains from, 6-17-50, p. 46
  seed, with fire hose, 10-21-50, p. 60
  worth good money, 2-18-50, p. 29
Grasshopper killer, Canada okays new, 5-6-50, p. 23
Grasshoppers eat too much, 11-4-50, p. 51
Growth factor, research adds new, 1-7-50, p. 40
Hog loss, reasons for, 12-2-50, p. 21
Hovers with radiant heat, use, 8-5-50, p. 52
Insecticide with long residual action, 9-16-50, p. 43
Insecticides give protection to grain against insects, 8-19-50, p. 52
  high-grade, use of, may reduce crop yields, 5-6-50, p. 22
Judging notion disproved regarding dairy cows, 2-4-50, p. 30
Lambs, new-born, need vitamin C, 3-10-50, p. 62
Lancaster new variety of bromegrass, 8-19-50, p. 52
Lights no help to pigs, 5-6-50, p. 22
Lindane, use, on screwworm, 11-4-50, p. 51
Mastitis germs live long, 6-3-50, p. 45
Meat tender, why is some, 8-19-50, p. 52
Mice, use peanut butter to catch, 11-4-50, p. 51
Milk market, will freezing help, 4-1-50, p. 32
  synthetic, calves raised on, 5-6-50, p. 22
Mulch boosts soybean yield, 10-7-50, p. 22
Netropsin new insecticide, 11-18-50, p. 24
Oil from sunflowers, more, 11-18-50, p. 24
Ontario fights ragweed, 6-17-50, p. 46
Peanut butter sprinkled with oatmeal good bait for mice, 11-4-50, p. 51
Phenothiazine treatment to control worms, 4-1-50, p. 33
Phosphate per acre, use more, 5-20-50, p. 60
Phosphorus study, Iowa new center for, 4-1-50, p. 32
Pigs, tired, don't butcher, 9-16-50, p. 43
Plant juices turned into bug-killers, 3-18-50, p. 64
Plastics, use residues in 10-21-50, p. 60
Potatoes may be sorted by machine, 2-18-50, p. 29
  red to dairy cows, 5-20-50, p. 60
  sweet, feed dried, 7-15-50, p. 29
Protein affects animal health, 8-19-50, p. 52
Quack killer with fertilizer, apply, 5-20-50, p. 60
  knock out, with TCA, 5-6-50, p. 22
Rabies, find new vaccine for, 5-20-50, p. 60
Ragweed, Ontario fights, 6-17-50, p. 46
Rat killer available, new, 8-5-50, p. 52
  killer, new, made at Wisconsin, 3-4-50, p. 62
Research adds new growth factor, 1-7-50, p. 40
Residues in plastics, use, 10-21-50, p. 60
Ring your pigs with care, 4-1-50, p. 33
Rust, new, on some corn leaves, 10-7-50, p. 22
Sawdust holds topsoil, 10-7-50, p. 22
Screwworm, use lindane on, 11-4-50, p. 51
Sheep cut soil losses, 7-1-50, p. 16
Shell endrop increases yields of fruit, 6-17-50, p. 46
Shredder tests, results of, 4-1-50, p. 32
Soil erosion during March, April, May and June, 7-15-50, p. 29
  losses, sheep cut, 7-1-50, p. 16
  poisoning, danger of, 5-6-50, p. 22
  sterilized with arsenic trioxide, 2-4-50, p. 30
  tests stimulate fertilizer use, 2-18-50, p. 50
Soybean defoilant duplicates action of early frost, 9-16-50, p. 43
  yield boosted with corn stover mulch, 10-7-50, p. 22
Sprayer trends, survey reports on, 3-18-50, p. 64
Spuds do you want, what kind of 2-18-50, p. 29
Stalk shredder tests, results of, 4-1-50, p. 32
Sterilize soil with arsenic trioxide, 2-4-50, p. 30
Strawberry, new ever-bearing, 10-21-50, p. 60
Subtilin, new antibiotic for sterilization, 6-3-50, p. 43
Sugar from Iowa corn stalks, 3-4-50, p. 62
Sunflowers, more oil from, 11-18-50, p. 24
TCA kills quack in Iowa test, 7-1-50, p. 16
  knock out quack with, 5-6-50, p. 22
2, 4-D mixture in oil good brush kill, 12-2-50, p. 21
  works well on sweet corn, 4-1-50, p. 32
Terramycin, newest wide-range earth-mold drug, 11-18-50, p. 24
Thiolutin may help fight fungi, 11-18-50, p. 24
Topsoil saved thru use of sawdust, 10-7-50, p. 22
Toxaphene, new booklet on, 3-18-50, p. 64
  residues in beef, mutton, 2-4-50, p. 30
Twins, identical, for research, 8-5-50, p. 52
Vaccination hog losses, three reasons behind, 12-2-50, p. 21
Viomycin being tested against tuberculosis, 11-18-50, p. 24
Vitamin C, new-born lambs need, 3-4-50, p. 62
Vitamins in grain vary with season, 1-7-50, p. 40
Wheat, new test for, 11-18-50, p. 24
  pumped thru water pipes, 10-7-50, p. 22
Wildlife, chemical brush killing good thing for, 3-18-50, p. 64
Wireworm controls, test, 5-6-50, p. 22
Wire-worms, killed by chemicals, 2-4-50, p. 30
Worms, corn ear, can control, 5-20-50, p. 60
  stomach, fight, 4-1-50, p. 33
  wire, killed by chemcials, 2-4-50, p. 30

Service Bureau

Account, open, is collectible, 1-7-50, p. 28

What's New

Adapter, Miller Mfg. Co., 8-19-50, p. 50
Adjust-a-Stitch, thread tension gauge, Miller Belt Co., Peoria, Ill., 12-2-50, p. 40
Air Cleaner, (for cars, trucks, power units), Air Cleaner Service 1-7-50, p. 42
Bale Pick Up, has floating unit designed to solve difficulties of uneven ground, Fuller Mfg. Co. 7-1-50, p. 36
Bales, rolled, Allis-Chalmers, Milwaukee, Wis., 12-2-50, p. 40
Barn Cleaner, is mobile, James Cunningham Son & Co., 10-7-50, p. 61
Barn Cleaner, pitless, single motor cleaner), Clay Equipment Corp. 3-4-50, p. 60
Barn Cleaner—Kewaunee Engineering, 8-19-50, p. 50
Barn Cleaner, Rada Industries, Inc., 4143 West Kinzie St., Chicago 24, Ill., 11-18-50, p. 46
Blind stitch attachment (for sewing in hems), Singer Sewing Machine Co., 5-20-50, p. 56
Bolts, movable for fan, Bennet & Son, Inc., Lenox, Iowa, 11-18-50, p. 46
Bracket for ladder, Handi Equipment Co., 908 10th St., Racine, Wis., 11-18-50, p. 46
Broiler, portable, Perfection Stove Co., 12-16-50, p. 30
Building, new type, metal requiring no posts to support side or roof, Behlen Mfg. Co., 8-19-50, p. 50
Carpet sweeper (miniature), Bissell Carpet Co., 210 Erie N. W., Grand Rapids 2, Mich., 12-20-50, p. 40
Chain saw, (saw driven by gas engine, Homelite Corp., 2-4-50, p. 53
Chain saw, Von Ruden Mfg. Co., Claremont, Minn., 11-18-50, p. 46
Chopper, hay, (has transports whereby lifting is eliminated), Fox River Tractor Co., 5-20-50, p. 56
Closet, clothes, (Kiddy Robes, storage space), Kelson Products Co., 11-4-50, p. 52
Combine control, (hydraulic, Easy-lift), Watson and Farr, 6-17-50, p. 50
Conversion Unit, (provides Diesel power for Farmall Model M tractors), R. H. Sheppard Co., Inc., 3-4-50, p. 60
Corn silage machine, Van Dale Farm Mach. Inc., 9-2-50, p. 53
Coupling, (for connecting hydraulic lines, between tractor and implement), Port Huron Machinery Co., 4-15-50, p. 64
Cow towel, (paper towel used in milking), Brown Co., 5-6-50, p. 57
Corn picker control, (hydraulic) Easy-Lift, Watson and Farr, 6-17-50, p. 50
Crimper, grain, H. C. Davis Sons' Mill Machine Co., 8-5-50, p. 50
Cultivator, front attached for Ford & Ferguson tractors, Love Tractors, Inc., 7-15-50, p. 48
Cushion seat, Knoedler Manufacturer, 8-19-50, p. 50
Disk Coulter-Jointer, (turns under trash without clogging), Yetter Mfg Co., 4-1-50, p. 54
Disk sharpener, 12-16-50, p. 30
Disk tiller (with manual or hydraulic single control), John Deere Co., 4-1-50, p. 54
Disk, wheel mounted, Kewanee Machinery Co., 8-5-50, p. 50
Diverter Cone in ear corn storage unit, Sioux Steel Co., 10-7-50, p. 61
Dozer blade, adjustable blade for grading, terracing, leveling etc.,) Horn Manufacturing Co., 3-18-50, p. 70
Dress form,(plastic form for home sewers), Barbara Originals, Inc., 4-15-50, p. 64
Drill press, (designed to use with electric drill), Sudenga Iron Works, 2-4-50, p. 53
Dump body, (works off tractor hydraulic system), Fleischer-Schmid Corp., 4-15-50, p. 64
Dynamometer, W. C. Dillon Co., Inc., 10 21-50, p. 62
Egg cooker, (automatic cooker), Sunbeam Corp., 4-1-50, p. 54
Elevator, (built to handle small grains, ear corn, baled hay), Diedrich Motors, 2-18-50, p. 70
Elevator, (portable for small acreage farmer), King-Hamilton Co., 4-1-50, p. 54
Expansion Control Unit, produces uniform size hay bales, M & W Sales Co., 7-1-50, p. 36
Feeder, automatic, James Mfg. Co., 7-15-50, p. 48
Fertilizer Attachment (fits Ford and Ferguson spring and rigid shank cultivators), Judson Brothers, 6-3-50, p. 50
Fountain, hog, (rolls up for filling, rolls down and is ready for use), Farmer Feeder Co., 7-1-50, p. 36
Gate opens and closes automatically, Bradley Mfg. Co., 11-4-50, p. 52
Gauge, (adjust-a-stitch), Miller Belt Co., 12-2-50, p. 40
Gears, special gears with nine speeds for tractors, M. W. Gear Co., 8-19-50, p. 51
Generator, (provides power to farm wiring system), Wincharger Corp., 3-18-50, p. 70
Generators, electric, standby, tractor-driven, 12-16-50, p. 30
Gentl-izer, (device for stopping kicking of cows), Pride Hybrid Co., 10-21-50, p. 62
Grain crimper, H. C. Davis Sons' Mill Machine Co., 8-5-50, p. 60
Grinder, trailer-mounted with auger elevator and power take-off drive, Letz Mfg. Co., 8-19-50, p. 50
Hammer knife, Mead Specialties Co., 4114 N. Knox Ave., Chicago 4, Ill., 12-2-40, p. 40
Hammermill (prevents loss of power thru belt slippage), Gehl Bros. Mfg. Co., 5-20-50, p. 56
Hammermill drive, (uses V-belts.) Dodgen & Co., 10-7-50, p. 61
Hay Chopper, (has transports whereby lifting is eliminated), Fox River Tractor Co., 5-20-50, p. 56
Hay cutter, (for cutting and conditioning hay), Meyer Manufacturing Co., 2-18 50, p. 70
Hay maker and self-feeder (combined), Martin Steel Products Corp., 3-4-50, p. 60
Hay rail, Koiker Mfg. Co., 9-2-50, p. 53
Heater, tank, bottled gas, 12-16-50, p. 30
Heating unit, (for Little Giant automatic poultry drinking fountains), Miller Manufacturing Co., 1-21-50, p. 46
Hen's nest, (steel unit), R. A. Padicy & Sons, 2-4-50, p. 53
Hoe, rotary, Burch Imp. Co., Evansville, Ind., 12-2-50, p. 40
Hog fountain, rolls up for filling, rolls down and is ready for use, Farmer Feeder Co., 7-1-50, p. 36
Hoist, electric power, Timberlock Corp., 9-2-50, p. 50
Hydraulic control (Easy-Lift) for combines, corn pickers), Watson and Farr, 6-17-50, p. 50
"Kiddy Robes" storage space, Kelson Products Co., 11-4-50, p. 52
Loader (rear-end for Ford, Ford-Ferguson & Ferguson tractors), Horn Manufacturing Co., 1-7-50, p. 42
"Micro-Filter", (milk filter for removing sediment), Union Wadding Co., 2-18-50, p. 70
Milk cooler, La Crosse Cooler Co., 8-5-50, p. 60
Milk cooler (refrigerating unit for milk), Globe Milker Co., 6-3-50, p. 50
Mop (mop with built-in squeezer and cellulose sponge), O.-Cedar Co., 4-15-50, p. 64
Mop, self-ringing, Betty Bright, Parker Mfg. Co., 8-19-50, p. 51
Moth trap, (for corn borer control), Henry C. Gruemmer, 4-1-50, p. 54
Mower, (cuts grass or tall weeds), Wind-King Electric Mfg. Co., 6-17-50, p. 50
Mower, (mower for cutting weeds, brush), Sensation Mower, Inc., 4-15-50, p. 64
Paint scraper, (steel scraping tool), Sure Grip Scraper Mfg. Co., 5-6-50, p. 57
Pipe thawer, (uses electric curient), Trindl Products Co., 1-7-50, p. 42
Plow, (self driven, for distributing fertilizer), Corn Belt Products, Inc., 4-15-50, p. 64
Power digger (power driven digger for footings, water systems, etc.), Badger Machine Co., 1-21-50, p. 46
Power-saw, (and mower combined), Farm Easy Products, Inc., 11-4-50, p. 52
Pulverizer corn stalk, (spiral cylinder with 54 hammers), Bennet & Son, Inc., 10-7-50, p. 61
Pump unit, Hypro Eng. Co., Inc., 8-5-50, p. 50
Rug-Kling, (fiber net prevents rugs from slipping), Milton Corp., Greenback Tenn., 3-4-50, p. 60
Salad cutter, Gildersleeve Mfg. Co., 8-19-50, p. 51
Seeder, (implement for sowing seed and grain), T. G. Tuttle & Sons Co., 5-6-50, p. 58
Sewing machine, (Adjust-a-Stitch), thread, tension, gauge, Miller Belt Co., 12-2-50, p. 40
Sewing machine, Necchi Sewing Mach. Sales Corp., (contact: Solomon Balsam Contempa. Agency, Inc., 5 Columbus Circle, New York 19, N. Y.)
Sewing Machine, (portable; "Betsy Ross"), Doughboy Industries, Inc., 2-18-50, p. 70
Shield, (provides safety from whirling universal joints), Blood Bros. Machine Co., 1-7-50, p. 42
Shredding unit, (shredder with receptacles for food), Homemakers Heaven, 5-20-50, p. 56

Snow bucket, (scoops cobs, grain, loose material), Henderson Manufacturing Co., 1-7-50, p. 42
Spray rig, (for spraying or detasseling), Finco Inc., 5-6-50, p. 59
Sprayer (high clearance, trailer-type sprayer), Twin-Draulic, Inc., 6-3-50, p. 50
Sprayer, (self-propelled spraying mechanism), Fleischer-Schmid Corp., 6-17-50, p. 50
Sprayer, (self-propelled unit, 6½ ft. clearance), O. W. Kromer Co., 5-6-50, p. 59
Sprayer, (sprayer with drop extensions), Dobbins Mfg. Co., 5-6-50, p. 59
Sprayer (trailer-type, attaches to tractor with single link), John Bean, Div. of Food Machinery & Chemical Corp., 5-6-50, p. 59
Sprayer, (with control of flow to boom pipes from tractor seat), Farm Equipment Division Century Engineering Corp., 5-6-50, p. 59
Stalk pulverizer, (implement cuts and pulverizes stalks), L. H. Schultz Mfg. Co., 3-18-50, p. 70
Steel unit hen's nest (steel nest: eggs roll into tray), R. A. Padley & Sons, 2-4-50, p. 53
Stubble cleaner, Balzer Mfg. Co., Mountain Lake, Minn., 9-2-50, p. 53
Tailgate, National Life Co., 8-19-50, p. 50
Tension, (Adjust-a-Stitch), Miller Belt Co., 12-2-50, p. 40
Thread, (Adjust-a-Stitch), Miller Belt Co., 12-2-50, p. 40
Tractor, equipped to burn bottled gas. Will pull four or five plows. Minneapolis-Moline Co. 7-1-50, p. 36
Tractor attachments, Central Mfg. Co., Omaha, Neb., 11-18-50, p. 46
Tractor disk, (disk powered by hydraulic ram), Smalley Manufacturing Co., 2-18-50, p. 70
Tricycle, toy, (patterned after the modern row-crop tractor,) New Monarch Machine & Stamping Co., 10-21-50, p. 62
Tripod legs, (removable legs for hydraulic jack), American Hydraulics, Inc., 1-7-51, p. 42
Unloader, (portable, for trucks, wagons), Pick Mfg. Co., 5-6-50, p. 57
Unloader, (wagon unloader with non-spring roller unit), Flinchbaugh Co., 6-17-50, 5, 50
Vapor dome, Manifold Hot Spot Corp., 9-2-50, p. 53
Ventilator, (for hen houses), Clay Equipment Corp., 10-21-50, p. 62
Ventilator, (for homes or farm buildings), No-Draft Ventilator Co., 4-1-50, p. 54
Wagon Box, Omaha Standard Co., 8-19-50, p. 51
Wagon dump (wagon end lifts for dumping), New Monarch Machine & Stamping Co., 3-18-50, p. 70
Wagon hitch, enables you to pull the wagon alongside the combine, designed to fit all combines, Calhoun Mfg. Co., 7-15-50, p. 48
Wagon unloader (unloader with non-spring roller unit), Flinchbaugh Co., 6-17-50, p. 50
Washer, (device for washing cow's udder), Crown Farm Implement Corp., 10-21-50, p. 62
Water system, (system to eliminate well pits), Baker Manufacturing Co., 1-21-50, p. 46
Wheel-mounted disk, Kewanee Machinery Co., 8-5-50, p. 60
Windrower, (completely hydraulic), Farm-Rite Implement Co., 6-17, p. 50
